- Doc dairy was mobile project for doctor mobile appointments.
 - I was part of the team of 2 front end and 1 backend developer
-

Award / leadership

C Tech Student Society 2014 - Vice president at University of Peshawar

- A provincial software exhibition and competition in which student from around 1 universities participated.
- We were the pioneer and organised the event for the first time in our university.
- I was responsible for speed programming competition for that I developed a code sharing application across local area connection for result.

1st Price at Nutech 2014 at Fast University

- My 3d scanner project won 1st prize among around 15 universities students projects.

2nd Price at Expo 2013 at Swat University

- Won 2nd prize for game development in C++ SDL among around 25 software projects
-

Extracurriculars

Workout in the gym for an hour daily in the evening

Love to cook with my family.

I can cook some chinese food like spaghetti and roast vegetable

I like to spend more time on cooking to learn more beside my job.

Theoretical physics, Quantum theory, Natural Selection, Purpose of life and the Big Questions about life itself are my favorite topics to listen and talk on.

Speakers like Sam harris and Richard Dawkin get my attention although I don't agree with them on some points.

Additional Skills

Photoshop
Adobe XD
Unity 3d
Processing,
OpenGL
3d Blender
